

EASTERN SKIES WILL BE FULL OF FLIERS SOON

Twenty Aviators From Many Nations Plan Attempts To Cross Atlantic This Year.

SUMMER BRINGS HUM OF ENGINES

Ships Will Range in Size From 135 Passengers to Single Seater; One to Five Motors.

London, May 13.—(P)—As the warm winds from the south melt the icebergs off the banks of Newfoundland, and despite the fogs of Labrador a small army of airmen in Europe are preparing to attempt the famous air hop from the old world to the new during the late spring and summer. New impetus has been given the fliers by the Noble prize flight and the recent westward trans-Atlantic flight of the Bremen.

Undeterred by the heavy toll of life taken last year and already this year attempts to fly from the east to the west, at least a score of airplanes are being constructed, finished or tuned up for the long jump.

Almost every nation of Europe seems to have become enthusiastically over trans-Atlantic flights. Smaller nations like Sweden and Holland are among those preparing to enter the great aerial sweepstakes.

A few of the fliers like Captain B. H. McIntosh, who attempted a flight last summer, expect to fly over and back, McIntosh with a flying boat, says he will make a double and triple crossing of both the north and south Atlantic.

The planes range from modest two-seaters like that of J. S. Charlton, of England, and his wife, Lady June Charlton, to the 135-passenger airplane planned by Professor E. Rumpler, of Germany. F. P. Young, an English pilot, is building a plane capable of carrying 20 passengers. He has adopted the unique experiment of advertising for passengers, saying he will fly July 1 from London to New York.

Three German companies, the Junkers, the Heinkel and the Rohrbach firms, are rushing their efforts to completion. The Rohrbach works are building a two-motored flying boat with capacity for 16 men, and says the famous German war ace, Ernest Udet. The Heinkel company, whose trans-Atlantic plane last summer reached the Azores and then was wrecked in an attempt to rise from the water, has built another plane on similar lines, but with more power. About half the airmen disclaim any intention of taking the more sensational direct hop from Europe to America without a stop, and say they will make first for the Azores. In order to break up the long journey, Captain F. T. Courtney, of England, who had difficulty last summer in getting his plane to rise from the water, plans such a trip in a twin-engine Dornier-Napier, while flying boat. His announced purpose is to obtain data which will assist the establishment of a trans-Atlantic commercial airway.

The dirigibles in course of construction are attracting possibly more attention than the airplanes. The R-100 is rapidly nearing completion at Howden, Yorkshire, England. It will carry 100 passengers, a crew of 40, 10 tons of mail, and make the journey from England to America in 48 hours. The flight is

TWO BOYS, 2 GIRLS DROWN AS BOAT CAPSIZES IN LAKE

Odesa, Mo., May 13.—(P)—Four young people from Kansas City were drowned in a lake near here early this morning when their row boat capsized. The dead, members of a party of eight that drove from Kansas City here for a fishing party, were: Corinne McClellan, 19; Ernest McClellan, 23; Lorraine's brother; Miss Pearl Carlton, 26, and Miss Katherine Felderman.

Mr. Jim Says . . .

"A RELIABLE newspaper is like a trustworthy friend—you can depend on it day in and day out. That goes for the editorial page, the news columns and the advertisements as well. If you ask me why I subscribe to The Constitution, there's my answer."

THE CONSTITUTION'S strongest asset is a "reader confidence" built up over a period of sixty years!

Chinese Guns Roar In American Zone In New Offensive

Tientsin Is Menaced as Nationalists Capture Tsangchow; 4,000 U. S. Troops Near Scene.

FOUR NATIONS NOW HOLD CITY

U. S., England, France and Japan Have Troops Concentrated; Tsinan Casualties Reach 2,500.

Shanghai, China, May 13.—(P)—The nationalist armies today claimed another decisive victory over the northern forces, which, it confirmed, again brings the front of the civil war into close proximity to a large foreign settlement.

General Yen Hsi-Shan, military governor of Shansi, claimed that his troops, by a lightning advance, have captured Tsangchow, taking prisoner 7,000 northerners with large booty and arms and ammunition. Tsangchow is midway between Tientsin and Tientsin, which the southern troops were said to have occupied without firing a shot a few days ago.

The southern army is now said to be advancing on Tientsin with the possibility of reaching there tomorrow. To the southerners capture of that city would mean cutting off Peking from the sea and the northern commander, Chang Tso-Lin, from his base in Manchuria.

To the rest of the world it would mean that a large foreign population had been placed in a precarious situation, such as resulted in the grave clashes at Nanking and Tsinan.

However, Tientsin is garrisoned with 8,000 foreign troops, 4,000 are Americans, equipped with 20 airplanes, five tanks and five field guns. One thousand are British, 3,000 are French, and 900 are Japanese. Most of the Japanese have been withdrawn for duty in Tsinan and other Shanghai province points.

ESTIMATES PLACE CASUALTIES AT 2,500

Tsinan (via Tientsin), May 13.—(P)—The latest estimates of the casualties suffered by the Japanese and Chinese since the fighting broke out on May 3, place the total at more than 2,500.

The Japanese authorities have announced that 41 Japanese soldiers were killed and 480 wounded, while 10,000 Chinese soldiers were killed and 20,000 wounded.

Only the accuracy of fire of the Japanese artillery during the bombardment of the walled city kept down the civilian death toll, it was said. The crowded residential quarters escaped damage for the most part, the shells dropping almost entirely on military points.

The nationalist defenders of the native city, who are now said to have numbered only 1,500, stubbornly resisted the efforts of the Japanese to clear the city despite the urging of the Chinese chamber of commerce to evacuate. There had been repeated bayonet charges against the hail of Japanese machine gun and rifle fire, with a resulting heavy death toll, it was said.

On the evening of May 10, General Fukuda, commanding the Japanese forces, gave no-combatants 12 hours to evacuate the city before ordering his forces to take it with high explosives. By daybreak of the following morning more than 200 third of the population had left. The remaining nationalist soldiers discarded their equipment and abandoned the city. By 8 o'clock the Japanese had quietly taken control.

The Japanese action here appears to have split the nationalist forces. Part of the southern army has gone south to Tsinan, where General Chiang Kai-Shek is believed to be making his headquarters. The remainder went to the north. All have now been expelled to beyond a six-mile radius of the city.

It is understood here that Japan has decided to adopt three measures pending settlement of the Tsinan affair. The first is the occupation and direct operation of the Tsinan-to-Peking railway.

LOWDEN FACES CAMPAIGN QUIZ IN WASHINGTON

Senators Begin Second Week of Unprecedented Probe With Former Governor on Stand.

SENATOR WATSON IS LAST WITNESS

After Completing Hearings of 13 Candidates Probers Will Call Managers of All Campaigns.

Washington, May 13.—(P)—Frank O. Lowden, of Illinois, who is seeking the republican presidential nomination, will give his testimony here tomorrow before the special senate committee investigating pre-convention campaign expenditures.

The former governor of Illinois will be the thirteenth candidate for the presidential nomination to be heard by the committee, as it opens the second week of its inquiry, at which for the first time in history candidates themselves have been called before a congressional committee.

After the questioning of Lowden, the committee will hear the last of the candidates, Senator James E. Watson, of Indiana, and then will turn again to the matter of the detailed receipts and expenditures on behalf of the leading aspirants, republican and democratic.

Small Amount Spent

Information thus far received by the committee indicates that the total expenditure on behalf of the twelve candidates questioned—five republicans and seven democrats—will not exceed half a million dollars. The Hoover expenditures for the list, being placed at \$241,274, with perhaps some additions from northern California and a few other states.

Some other midwestern senators who push this argument are partisans of Lowden or Dawes, and have the motive of hoping to intimidate the national leaders out of nominating Hoover, the result may be the nomination of Lowden or Dawes.

One or two midwestern senators who make this argument against nominating Hoover do so with apparently sincere conviction. For example, Senator Newbeck of South Dakota, from whatever source and all sources, this assertion that Hoover could not carry the midwest is at present the principal aspect of the campaign. Looking at the question as a matter of opinion, the overwhelming judgment of disinterested leaders and newspapers in the midwest is that Hoover could carry the midwest.

When ex-Governor Henry Allen, of Kansas, heard that eastern senators had been told Hoover could not carry that state, Allen took a poll of the

COST OF FIREBUGS REACHES \$100,000

Latest Incendiary Fire Is Reported at Vacant House on Warren Street, Where Gasoline Is Found

Incendiary fires in Atlanta during the first of October to the present time have cost the city of Atlanta approximately \$100,000, according to an estimate made Sunday as fire officials were checking the latest blaze, believed to have been the work of a firebug, at 80 North Warren street, N. E.

"There have been more fires here, evidence of incendiary origin in Atlanta since October than ever before in the same period of the city's history," Chief W. B. Cody stated Sunday.

"In every case we have promptly gathered all the evidence possible under the circumstances and have turned it over to the police authorities but up to date we have had little success in catching those responsible. It seems to me that the only real chance we have is to post men in vacant houses and wait for the firebugs and everybody will admit that that is a big and almost impossible task."

The latest fire laid to firebugs was that at the Warren street address early Sunday morning. The residence, which was vacant at the time, belongs to C. T. Rizer, who lives next door. Call Officers W. D. Nash and John Lowe reported at police headquarters that they had found a can of gasoline in a closet on the first floor.

A small market at Peters and McDonald streets was completely destroyed early Sunday morning by fire of an undetermined origin. It was reported by Call Officers S. L. Ivy and C. W. Crankshaw.

A vacant residence on Peachtree road near Brookwood station, owned by the Ewing Lumber company, was badly damaged early Sunday morning by flames of undetermined origin. Fire reports stated.

GRADE CROSSING CRASHES KILL EIGHTEEN, INJURE 35 IN FIVE STATES SUNDAY

CONGRESS SPEEDS UP LEGISLATION FOR ADJOURNMENT

Leaders Are Anxious To Pass Important Measures Before Two Big Conventions.

Washington, May 13.—(P)—With the opening of the national political conventions less than a month away, congress will set out this week to speed up its legislative program with a view to adjournment well in advance of the gathering of the republicans at Kansas City on June 12.

Leaders had set as their goal a date not later than May 28, which would give two weeks for cleaning up the last session, there are still two other major pieces of legislation to him this week—the McNary-Haugen farm relief bill and the Jones-White marine measure.

Since the farm bill carries the qualification fee which was the primary cause of the veto by Mr. Coolidge at the last session, there will not be time for the enactment of any other form of farm relief before adjournment.

House and senate conferees have agreed to a form of merchant marine legislation which they are hopeful will meet with the approval of Mr. Coolidge, thus making possible what they regard as a necessary program for the relief of the merchant fleet and its eventual transfer to private enterprise.

Approval of the conference reports by the two houses on the farm relief and merchant marine measures is to be asked during the week with little probability of opposition in either house as the fundamental principles of the bills have been approved by both houses by a large majority.

Keen consideration tomorrow of the tax revision bill, the senate was expected to reach a final vote within a few days since the most highly controverted features of the measure have been disposed of, with the administration and anti-administration camps united in support of the important features, involving the corporation tax.

While the senate is wrestling with the tax problem, the house will take up the Hawes-Cooper labor prison product goods bill and the Denison measure to extend the Mississippi river barge line from St. Louis to the Twin Cities.

With the expectation that these two measures will be disposed of within a few days since the most highly controverted features of the measure have been disposed of, with the administration and anti-administration camps united in support of the important features, involving the corporation tax.

Negroes Raise \$25,000 To Send Own Flier Over

HARLEM'S HERO WILL DEFY ATLANTIC

BY SAM LOVE. New York, May 13.—(United News.)—Among the summer's quota of projected trans-Atlantic hops, none is awaited with greater interest in Harlem than the approaching "Rome and return" flight of Lieutenant Hubert Julian, Harlem's negro hero of the air.

A campaign to buy him by \$25,000 popular subscription a Bellanca monoplane is under way and with every indication of actually being over-subscribed.

Lieutenant Julian, 29 years old, and leading figure in negro aviation circles is no ordinary flier. He has the immortal flair for doing whatever he does in the grand manner.

Long before Colonel Lindbergh made a millpond out of the Atlantic, Julian, whose business card is inscribed "world's champion daredevil parachute jumper," made a historic attempt to cross the ocean in his seaplane, the Ethiopia.

It was on July 4, 1924, that all available police resources were rushed to the Harlem river to handle the crowd gathered for the takeoff of the Ethiopia. A round trip to four continents, via Atlantic City, South America, Liberia (Africa), Paris, London, Greenland and Canada was about to begin.

When everything was ready for the start, Julian left the plane, mounted a taxicab and divulged the sad news that \$1,400 was still owing on his plane. The crowd produced the amount in something more than a jiffy. Julian gave the Ethiopia the gun, a brief hiatus, the Ethiopia was towed to the East river. This time, Julian gave the Ethiopia the gun, a brief hiatus, the Ethiopia was towed to the East river.

An anxious Harlem awaited word of his whereabouts but he was not sighted until he made a forced landing in Flushing bay, several miles distant.

Luxury Plane Arrives Here On Long Trip

Largest Liner of Sky Greeted By Thousands at Candler Airport.

BY BILL SHIPPEN. American aviation has opened the avenues of the sky for safe, swift and punctual passenger service.

Or this was my conviction Sunday afternoon on landing at Candler field, 90 minutes out of Spartanburg, in a liner of the sky—perhaps the largest cabin ship ever to touch here.

In the giant Fokker monoplane were eight passengers, two pilots, no end of luggage, one wire-haired spaniel, and a Persian cat.

Everybody happy. On the way down from South Carolina everybody was happy, including the animals—there was security in the sturdy drone of the whirled motors, comfort in the steady motion they projected and joy in the beauty of shifting vistas underfoot.

The plane was en route to Los Angeles where it will be used in passenger service.

DEPUTY IS SLAIN IN PISTOL BATTLE

Negro Opens Fire on Posse Sent To Arrest Him for Liquor; Dies After Attack.

Alexandria, La., May 13.—(P)—Frank Phillips, 35, Rapides deputy sheriff, and William Blackman, 38-year-old negro, were killed today near Longview in a gun battle at the latter's home in which three other deputies and a number of negroes participated. A posse of nearly 200 were watching for the negro who escaped Phillips called at Blackman's home to serve a warrant for alleged violation of the prohibition law in company with three companions. Blackman was said to have stepped outside as the deputies approached and opened fire. Phillips shot almost simultaneously and was thought to have killed the negro before he himself dropped.

George Blackman, father of the slain negro, and Lee and Slim Blackman, brothers of the deceased, were being sought by the posse. The men-thriving were headed by Sheriff U. T. Downs. Feeling was running high, according to reports.

The deputy sheriff shot to death was survived by his widow, two sons and a daughter. Funeral services will be held Monday afternoon in Glenora.

EIGHT ARE KILLED AS TWO CARS RACE ERIE FAST TRAIN

Speeders Reach Track at Same Time and Are Crushed by On-Coming Engine at Crossing.

THREE ATLANTANS IN INJURED LIST

Bus With Twenty Passengers Turns Over in Arkansas; Churchgoers Struck Near Chadbourn.

Washington, D. C., May 13.—Eighteen persons were killed and 35 injured in six grade crossings and highway automobile accidents Sunday. Eight of the victims were killed in crashes in North Carolina and Arkansas.

A toll of eight lives and five persons seriously injured was the tragic result of a race between two automobiles and a crack Pennsylvania passenger train at a crossing at Esplanade, near Erie, Pa., late Sunday afternoon.

Six persons are dead and five injured as the result of another grade crossing crash at Chadbourn, N. C. Two men were killed and a third man seriously injured at Bryson City, N. C., when the automobile in which they were riding left the highway and plunged down an embankment into a creek early Sunday morning.

Two soldiers were killed at Aberdeen, Md., when their auto crashed into a Pennsylvania train.

Wheeler Mangum, Clarence Gibbs and O. B. Doster, all of Atlanta, were slightly injured in an accident near Dalton, Ga.

Twenty persons were injured when a truck collided with an auto near McCrory, Ark. The twenty were returning from church.

The dead are: Mr. and Mrs. Clara Hays, North Shavano, 10, 7, 4 and 3 years; Ward Thomas, aged 60, Pennside, Pa.; William Thomas, 32, Albion, Pa.; B. E. Leiberter, 40, Bryson City, N. C.; J. C. ("Fatty") Angel, Andrews, N. C.; Miss Mary Ballard, 17; Chester Bell, 40, Bryson City, N. C.; Bertie Britton, 13, and Rosa Ellis, 7, all of Chadbourn, N. C.

Mrs. Ward Thomas, Pennside, Pa., fractured skull, not expected to live; two-year-old daughter of Mr. and Mrs. Clara Hays, North Shavano, Pa., slightly injured; Mrs. William Thomas and two children and Monnie Thomas, 21, of Pennside, Pa., minor injuries; Justin Shiner, 20, of Bryson City, N. C.; severe injuries; E. C. Ballard, 15, Chadbourn, N. C.; right leg and hip fractured; bruised and in critical condition; Lois Ballard, 10, Chadbourn, N. C.

BLACK HAND KING IS LATEST VICTIM OF CHICAGO GUNS

Chicago, May 13.—(P)—Gaetano Atti, 50, variously known as "The Wolf," "The King of Black Handers" and "The Musclet," today paid the penalty for scores of crimes charged against him. His body, with four bullet wounds was found by a roadside near Harvard, a suburb.

The body was identified by Paul Riccio, of the detective bureau. "It's the Musclet," he said. "They got him before we did. Last week we had a trap laid for him, a fake package supposed to contain \$5,000 he had demanded from a prospective victim, and we had orders to kill him. But he didn't appear." The police are without reliable clues.

The Weather FAIR.

Washington, May 13.—(P)—Forecast: Georgia—Fair Monday; Tuesday mostly cloudy. Kentucky—Fair and slightly warmer Monday; Tuesday increasing cloudiness, probably followed by showers in extreme west portion. Tennessee—Fair Monday; Tuesday cloudy, with showers in west portion, not much change in temperature. Virginia—Fair Monday and Tuesday; slowly rising temperature Monday in east and north portions. North Carolina and South Carolina—Fair Monday and Tuesday. Florida—Mostly cloudy Monday and Tuesday. Extreme Northwest Florida and Alabama—Cloudy Monday and Tuesday; showers Tuesday or Tuesday night. Mississippi—Cloudy Monday; Tuesday showers. Louisiana—Monday and Tuesday unsettled; local thunderstorms; not much change in temperature.

METHODISTS FACE FIGHT ON BISHOPS

Kansas City, May 13.—(P)—Discussion of episcopacy has assumed prime importance at the quadrennial general conference of the Methodist Episcopal church here following two weeks of business that saw definite expressions, if not final settlement, of the prohibition, disarmament, fundamentalism and unification issues.

The whole time-honored system of episcopacy is under fire from many prominent church leaders, who have sent memorials seeking greater church democracy to standing committees. Early reports were asked, and the battle on bishops was scheduled to break forth on the conference floor early this week.

The case of Anton Bast, suspended bishop of Copenhagen, who is on trial here for imprudent conduct, has brought the long-smoldering discussion to a head.

Life tenure, residence, election number and dominance of bishops have been the chief points raised, though in a few cases abolishment of the whole system of episcopacy in Methodism is favored.

The conference already has endorsed unification and appointed a commission to act, placed the fundamentalist-modernist argument and prohibition, and advised the political parties that enforcement planks and dry candidates will be demanded in the presidential campaign.

PIMPLES KEEP YOU FROM LOOKING YOUR BEST!

If you have a clear, smooth skin, free of unsightly blemishes, you need never fear the impression you will make on people you meet. But a pimply face keeps you from looking your best and repels rather than attracts people.

Pimples and other skin infections quickly yield to Black and White Ointment, used according to directions. It is pleasant to use, highly beneficial and scientifically safe.

For best results use Black and White Skin Soap with Black and White Ointment. All dealers sell them at small cost.

LUXURY PLANE ARRIVES HERE ON LONG TRIP

Continued from First Page.

senior service between this city and San Francisco for the Western Air Express. Two ships of similar construction are on northern routes to the west coast and all three are distributing educational matter in behalf of aviation and to boost California in the name of 500 civil clubs of that section. The plane, which landed here at 4:30 o'clock Sunday will leave at 9 o'clock this morning for New Orleans by way of Montgomery, Ala.

At Spartanburg a throng of 2,500 had assembled under a brilliant sky to witness the arrival of the largest plane ever seen there. It settled to the field on schedule from Richmond, Va., and fueled for the Atlanta hop.

Dust Scatters Crowd.
 When the pilot prepared for the takeoff three great motors talked up, hurrying back a tornado of dust that scattered the crowd. For the 5-ton weight she was carrying this ship fairly vaulted into the sky. A trio of motors of 425 horsepower each dragged her aloft.

"Suppose," murmured a passenger, "one of the motors cuts out?"

"They're not that kind of motors," laughed Fred Gudcell, Western Express executive from Los Angeles in charge of the flight. "—but if one should go bad we can climb with the other two. If two go dead we can hold our altitude on one."

On either side of the cabin are six passenger seats, of wicker construction, and luxuriously cushioned to rest the back and head. Up front the pilot cockpit is fitted with dual controls; either of two men can fly the ship at any time.

The fuselage is staunchly built and insulated to deaden the thunder of the power plants, while a 74-foot wing spans smooths out aerial ruts and hurries to an astonishing degree.

Luxury Everywhere.
 Mahogany trim and leather finishings line the cabin interior, while the windows, incredible as it may seem to train passengers, are easily adjusted to regulate the fresh air supply.

On the way down Sunday the passengers lolled in easy chairs, moved along the aisle or kidded the dog, whose name is "Ginger," and who, by the way, is going through to California with his mistress, Florabel Muir, New York magazine writer.

Cruising at a 120-mile-an-hour clip, the giant ship roared along at 2,500

feet, keeping the southern double-track in view, and, incidentally, straightening out on few loops and curves.

Out against the northern horizon the hazy loom of the Blue Ridge was in view, while southward Georgia spread a crazy quilt of pine hills and bright red fields.

Despite repeated pleas by Will Rogers, the humorist, with a serious bent for aviation, only one city between Atlanta and Spartanburg displays its name on rooftops—Toccoa, Ga. Pilots must often fly dangerously near railroad stations in hope of getting a clue from the sign.

Cities which value their chimneys and radio aerials had best advertise their identity.

Guggenheim Aids.
 The trip across the continent by the three planes is partially financed by the Daniel Guggenheim fund for promotion of aeronautics, which sponsored Colonel Lindbergh's national tour some months ago. It was one of these three ships which the colonel used in taking congressmen up for a taste of flying at Washington this spring.

Another passenger going through to the coast on the southern route is C. Z. Zook, representing the California Development association, which embraces 500 civil clubs of that state.

Two California pilots, Norman Foster and Mary Cornwall, are in charge of the plane. A Richmond Chamber of Commerce official, T. Coleman Andrews, and two Spartanburg business men made up the passenger list.

On landing at Candler field the party was greeted by local city and chamber of commerce officials, who are planning a send-off for the visitors this morning.

Approximately 2,500 persons were on hand at the Atlanta airport when the plane landed.

CONGRESS SPEEDS UP LEGISLATION

Continued from First Page.

session and the recess period could be devoted to a study of the whole problem by a commission with a view to final senate action at the next session. Politics will continue to play a major part in congressional affairs, both on the floor and in the committees. The special campaign funds body of the senate will open the second week of its inquiry into presidential campaign expenses tomorrow, with the hearing of Frank O. Lowden.

Later in the week the committee will hear Senator Watson, of Indiana, and additional managers for Secretary Hoover and other candidates for the republican nomination.

General Faria Dies.

Lisbon, May 13.—(P)—General Bernardino Faria, who commanded the artillery of the Portuguese expeditionary forces in the world war, died today.

18 KILLED, 35 HURT, IN SUNDAY CRASHES

Continued from First Page.

lard, 7, Chadbourn, fractures, cuts and bruises.

Of the 20 persons injured at McCrory, Ark., when a truck collided with an automobile on the highway, five are believed to be in critical condition. They are: Rev. James A. Overton, Jackson, Tenn.; Mrs. Minnie Pickett, Mrs. John Killingsworth and Mr. and Mrs. Frank Wright, of McCrory. The truck, driven by Alvin Wright was occupied by 22 persons.

Two automobiles, believed by engineers to have been racing, crashed into a Pennsylvania passenger train at a crossing in Esprville, near Erie, Pa., today.

James Palmer, of Erie, engineer on the train, said the crossing was free of obstruction to the view in all directions and that he had seen the two cars approaching the tracks at high speed. He added that the drivers apparently did not see the train and that both machines crashed into his locomotive before he could stop.

Six of the victims were killed instantly, some of the bodies being thrown under the wheels of the train. Ward Thomas died on the way to Erie, the injured having been brought here on the train, which was running from Pittsburgh to Erie. Mrs. Hays died in a hospital. The locomotive was damaged by the double impact of the automobiles and proceeded here with difficulty. Esprville is 35 miles southwest of Erie.

Wheeler Mangum, Clarence Gibbs and O. R. Dozier, of Atlanta, were injured this afternoon when their car overturned in a ditch near Dalton, Ga. The men were taken to a local hospital at Chattanooga, where it was found Mangum had received injuries

to the forehead, right shoulder, right ankle and left foot. Gibbs was hurt on the forehead and right knee, while Dozier's injuries were on the forearm and chest. Mangum remains at the hospital, but the other victims were dismissed. It was reported that the car of the Atlantans was crowded from a narrow road by another machine.

Twenty persons were injured when a truck in which they were returning from a church dedication at Wivel, near McCrory, Ark., collided with an automobile and overturned on the highway. The truck was driven by Alvin Wright and was occupied by 22 persons. The car, with which it collided was driven by Thomas Hall, of Wivel.

Officers who investigated the crash had not fired the blame tonight. No arrest was made.

Six were killed and five seriously injured when a large truck loaded with men, women and children, returning to their homes from Sunday school, was hit by an Atlantic Coast Line passenger train near Chadbourn, North Carolina.

According to eye-witnesses, the driver of the truck drove on to the truck before seeing the train. The engineer on the opposite side from the truck did not see it until the crash and three of those killed were loaded on the train when it was stopped some distance down the track.

The five killed were dead when physicians arrived from Chadbourn at the scene of the accident. The driver of the most seriously injured were carried to a hospital in Wilmington and the others to hospitals in Lumberton. Reports from the hospitals say that the condition of several of the injured remain critical.

About 25 people were on the truck and nearly all of them, not killed or seriously injured, were bruised and scratched. Some of the bodies of the dead were badly mangled.

All those of the truck lived in the country around where the accident occurred.

Two soldiers attached to the chemical warfare service at Edgewood arsenal were killed at Aberdeen, Md., today, when their automobile crashed into a Pennsylvania train bound from New York to Baltimore.

Private Ernest W. Farran, of Keyville, Va., and Private Charles Curry, of Altoona, Pa., were the men killed. The bodies were found by state police beneath the demolished machine at the railroad crossing.

DAVE LEWIS, AUTO RACER, KILLS SELF TO ESCAPE BLAZE

Continued from First Page.

Los Angeles, May 13.—(P)—Dave Lewis, 40, veteran automobile race driver, shot and killed himself today with a shotgun in his mountain cabin in San Francisco canyon, about 40 miles northeast of here, when a brush fire on his cabin site went beyond his control.

Sheriffs' deputies, reporting the shooting here, said that Lewis had been engaged in clearing brush from around his cabin. When the fire, which he had set went out of control, Lewis became excited, they said, and ran into his cabin and killed himself.

Lewis won his "spurs" as a racing pilot in the days of Barney Oldfield, Teddy Tetzlaff and Eddie Rickenbacker. He retired from the racing game several years ago.

In March, 1927, Lewis was divorced from Helen Lewis, radio singer. Two months ago he remarried.

Some sons neglect to write mother and others go to the other extremes. Young Roger Wolfe-Kahn, the jazz orchestra and aviation enthusiast, talks to his mother, now in London, by trans-Atlantic radio phone every night.

SPANISH AVIATORS TO MAKE ASSAULT ON NON-STOP MARK

Continued from First Page.

Seville, Spain, May 13.—(P)—The Spanish aviators, Jimenez and Iglesias, who reluctantly abandoned their plans for a trans-Atlantic flight to Cuba following pressure from the Spanish government, intend to take off Monday afternoon for India in an effort to establish a nonstop distance record.

Their plane, the Jesus Gran Poder, which crashed into an automobile when the fliers attempted to hop off a few days ago, has been repaired and

only bad weather can prevent the start of the flight.

The aviators intend to follow a course which will take them through Italy, Greece, Turkey, Persia and Mesopotamia before reaching Karachi, India.

Paris Tears Down Old "Flop House"

Continued from First Page.

Paris (P)—The "Golden Grape," nearly the last of the notorious "flop houses" of Paris, has disappeared. It was a "hotel" without beds, where men slept hanging over suspended poles if they didn't like the floor, or if there was no room on it.

WELCOME... ROTARY

The spirit of your great organization is the same that guides the Destiny of this Company---a spirit manifested by your Slogan:

"He Profits Most-- Who Serves Best"

We take great pleasure in welcoming to Atlanta Rotarians of the 39th district, who will meet here Monday for a two-day conference.

We extend to these distinguished visitors an invitation to see Atlanta, visit the city's points of interest, look over our beautiful residential sections.

Street cars and coaches are waiting to take you **anywhere** you wish to go, and do it comfortably, quickly and economically. Among other points of interest, you will wish to visit Stone Mountain, where work is in progress on the gigantic memorial to the Confederate soldiers. Interurban cars leave Broad and Hunter Streets for Stone Mountain at 27 minutes past each hour.

Coaches leaving the downtown section throughout the day offer a beautiful tour through Atlanta's business district and some of the most attractive residential sections.

**FITZGERALD MAN
TO BE ORDAINED
PRIEST BY KEYES**

Savannah, Ga., May 13.—(AP)—The Rev. Herman Deimel, of Fitzgerald, will be ordained a Catholic priest by the Right Rev. Michael J. Keyes, bishop of the Savannah diocese, next Thursday at 9 o'clock, it was announced today at all masses at the Cathedral of St. John the Baptist.

The Rev. Deimel has just been graduated from Rulapian House Catholic university, Washington. His first mass will be celebrated next Sunday at Fitzgerald in St. William's church.

**13 GALLONS OF CORN
CAUSE OF ARREST
IN ATLANTA, MAY 13**

Maybe F. R. O'Shields, of 1300 Fair street, N. E., wasn't superstitious before, but on Sunday, May 13, he was arrested at 1300 Fair street, charged with possessing 13 gallons of whisky by Officers S. G. Tuck, R. D. Dupree and G. O. Wallace. Officers reported they found 13 gallons of whisky under a bed in his home.

**TABERNACLE OPENS
TWO WEEKS' REVIVAL**

The Baptist Tabernacle, under leadership of Dr. Will H. Houghton, opened a two weeks' revival Sunday morning, the pastor gathering speaking twice Sunday to large congregations. There were 24 additions to the church during the day.

During the service Sunday night a demonstration was given by the junior department of the Sunday school of the Bible work done in their department. Dr. Houghton, pointing to these young people at the conclusion of their drill, said: "There is the great need of our youth today. If mother and father saw that their boys and girls received the Bible background and the spiritual training necessary, the problem would be solved."

In discussing the subject "What is wrong with our youth," the pastor spoke from the text, "And they caused their sons and daughters to pass through the fire and used divination and enchantments, and sold themselves to do evil in the sight of the Lord, to provoke Him to anger."

"The chapter from which this verse is taken is the story of the Assyrian captivity from which the tribes never returned," he said. "The sin of idolatry is mentioned several times in this chapter and it was the great sin that caused God to cast them off. The climax of their sin comes in the above verse. They caused their sons and daughters to worship the false gods. Jehovah had made the parents responsible for their children and now in this chapter the parents had not only gone back on God, themselves, but had taught idolatry to their children."

In answering the question, "What is wrong with youth," Dr. Houghton said he believed there were three answers. "First," he said, "there is an economic explanation. All must recognize that our age is different. Our young people are experimenting with a host of things that other generations never knew. This fact calls for sympathy on the part of the elders and a realization that we might not

**SUN WILL BEAM
UPON ATLANTANS,
SAYS FORECASTER**

Fair weather today will continue to bring the sun beaming down on Atlantans, accompanied by steadily rising temperatures, which means a general casting aside of coats, and a widespread popping of brows.

Sunday was a balmy enough, with cloudy spells threatening to moisten the city.

**MILLER TO HEAD
BAXLEY SCHOOLS**

Waycross, Ga., May 13.—W. D. Miller, principal of the Waycross High school, has accepted the superintendency of the Baxley city schools for the 1928-29 term, it was announced today.

do as well ourselves under the same circumstances. Second, there is a psychological explanation. There was a time when we read 600 pages to get a story, but this age craves a hundred thrills in a dozen pages and feeds itself on pictures that are guaranteed to give a thousand thrills.

"Third, there is a moral and spiritual explanation. This explanation he well illustrated in 'this Old Testament text. Just as ancient Israel imported gods to the destruction of their youth, we Americans have brought from other lands false gods to our children. There is a false god of an imported theology. Our nation is built on simple faith in the Word of God, but a destructive criticism, imported from other lands, has come to undermine the faith of our young people and caused them to cast off all authority."

The revival at the Tabernacle will continue every night this week except Saturday.

Always Tired and Achy?

You can't feel well when kidneys act sluggishly.

EVERY day find you tired and achy? Suffer nagging backache, drowsy headaches and dizzy spells? Are the kidney secretions too frequent, scanty or burning in passage?

These are often signs of improper kidney action and shouldn't be neglected. Doan's Pills, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of waste impurities. Doan's have won a nationwide reputation. Ask your neighbor!

50,000 Users Endorse Doan's:

Mrs. Emily Herring, R. F. D. 1, Blakely, Ga., says: "The trouble with my kidneys was caused from a cold. There was a pain in my back from the time I got up until I went to bed. Headaches were frequent and I had dizzy spells too. I made up my mind to try Doan's Pills and two boxes were all I needed to rid me of the troubles."

VICTIMS OF AUTO CRASHES IMPROVE

Four victims of Saturday auto accidents were much improved Sunday night according to reports from Grady hospital.

Mirwin Johnson, aged 8, daughter of Mr. and Mrs. C. C. Johnson, 370 Highland avenue, struck Saturday afternoon by a car driven by an unidentified man, was better and it had been definitely determined that the child is suffering only from a severe concussion of the brain and did not

Banff and Lake Louise in the heart of America's Alps

"Castle in the air" is Banff's magnificent new hotel, enthroned on a crag overlooking the spectacular Bow Valley. "Shrine to Beauty" is Chateau Lake Louise, kneeling in golden poppies beside the loveliest picture in all the world.

Here the smart and great of two continents come to play in soul-expanding grandeur. Banff has the warm sulphur baths, the newly remodelled golf course. Lake Louise has the glaciers and tea houses in the clouds. Both have tennis, swimming, boating, dancing, thrilling motor and trail trips.

Some prefer Banff, some like Lake Louise. Most people stop at both—that is, they do if they make reservations early enough. It's time now. Full information from

E. G. CHESBROUGH, Gen. Agt., Passenger Dept., Canadian Pacific Railway, Suite 1017, Hazley Bldg., Atlanta, Ga. WAlmont 2217, or Any Local Steamship Agent.

Canadian Pacific
World's Greatest Travel System

have a fractured skull as had been feared Saturday.

Ruth Grissom, 5-year-old daughter of Mr. and Mrs. Tom Grissom, 810 Harold street, injured in a motor mishap Saturday, also was much improved. She is suffering from concussion of the brain.

Discharged from hospital, Walter Knight, 16-year-old son of W. W. Knight, 1015 Longley avenue, who was knocked from his bicycle and badly cut about the head Saturday night when he was struck by a car at Longley avenue and Marietta road, was dismissed from the hospital early Sunday morning after doctors had decided that his head injuries did not extend beyond severe lacerations which seemed not likely to prove serious.

At the time Knight was struck, according to his statement made Saturday night, the driver of the car stopped and offered his assistance to the boy but no one asked his name at the time. It was learned that the car had been driven by Dr. J. H. Hasty, 14 Belle Mead avenue, when the doctor reported to police headquarters early Sunday night.

According to Dr. Hasty's statement he was driving along Marietta road toward the city and Knight was riding a short distance behind him on his bicycle. Reaching Longley avenue, the street upon which he lives, the boy suddenly turned in front of the car, making it impossible to avoid the accident, police were told. According to Grady hospital attendants, Dr. Hasty called the late Saturday night to inquire as to the youth's condition.

Winifred Jones, 22, 820 Delaware avenue, brought to the hospital late Saturday night in an unconscious state after an auto crash on Storval street, also was much improved and her injuries were said to consist only of severe lacerations about the head.

Boy Hurt By Uncle's Auto.

Austin Green, 5-year-old son of Mrs. Paul Green, of a Belavia avenue address, was treated at Grady hospital for lacerations about the head received when he was knocked down by a car driven by House Fouts, Fair Oak, Ga., on Pine street early Sunday afternoon. The boy was playing near the street and suddenly darted in front of the machine and the driver was unable to stop before he struck the boy, witnesses stated. Fouts is an uncle of the victim. Following the treatment of his wounds the boy was allowed to return to his home.

Grady Patterson, age 4, son of Mr. and Mrs. R. A. Patterson, 115 Tye street, was treated at Grady early in the afternoon for minor lacerations about the head received in an accident which occurred Sunday, but on which no police report has been made.

Sam Wilson, 9, son of Mr. and Mrs. E. P. Wilson, 790 Hill street, S. E., fractured his right arm Sunday afternoon when he fell while at play near his home. The arm was set at Grady hospital by staff doctors.

Mrs. C. H. Smith

110 Whitehall

Helmut Francis Griffin, 7-year-old daughter of Mr. and Mrs. Charles Griffin, 606 Killian avenue, was brought to Grady hospital Sunday by her parents, where she was treated, after which she was sent home.

Struck from his bicycle by a "hit-and-run" driver on Jackson street Sunday night, Frank Davis, 14-year-old negro, was carried to Grady hospital by police call officers, where it was found his injuries consisted of lacerations about the arms and legs. After the wounds had been dressed he was allowed to leave the hospital.

EASTERN SKIES FULL OF AIRPLANES SOON

Continued from First Page.

scheduled for the late summer. In England, a sister ship, the R-101 is proceeding more slowly. A semi-rigid airship, the R-38, about one-fifth the size of the R-101, is planned by the British Airships, Ltd., for a trans-Atlantic flight. In Germany, a Zeppelin is being built, competing in the constructional speed with the R-100.

From the little countries of Europe come reports of great airship activities. Captain Kowalevsky, of Poland, says he will fly from Warsaw to Chicago, with Ireland and Cape Race as way points, in the autumn. He is accompanied by a civilian pilot and a journalist. He is hesitating between a Dutch Fokker airplane and an Italian plane.

The old Viking route to Vinland is to be followed in a flight planned by the Swedish geologist, Hakon Wadell, now studying at the University of Chicago. He expects to fly in a three-motor seaplane to America by way of Norway, Iceland, Greenland, Labrador and Canada.

Belgium has come to the fore with an offer of \$30,000 for the first airman who lands at Ostend from New York. Other prizes are offered to the airman arriving second and third. The competition is under the direction of the Belgian Aero club.

Senior Pablo Riqua, of Spain, and Major Franco have made a super-flying boat equipped with four engines of a total of 2,000 horsepower, in which to fly around the world. All in all, therefore, it will be a busy summer, with many new things going on just up beneath the sun.

CHINESE GUNS ROAR IN AMERICAN ZONE

Tsienan railway: the second, the occupation of the foreign settlement here, and the last, the establishment of a neutral zone ten miles wide along the railway and around Tsienan.

LEAGUE IS PUZZLED OVER CHINESE AFFAIR

Continued from First Page.

General, May 13.—(P)—League of Nations circles, with the appeal of the Chinese nationalists against Japanese activities in Shantung at hand, tonight were looking for the next move in the tangled situation to come from Japan.

Although the Chinese member of the league council represents the Peking government, the Nanking government, which has submitted its grievances to the world through a league, has a certain semi-official force in that it claims to control now 17 provinces of the ancient empire.

It is pointed out that Japan always has been among the stoutest champions of the league, and that, as a permanent member of the council, it has taken a foremost part in the settlement of European disputes. It is regarded that Japan can ill afford to maintain silence now that its own in-

tentions are challenged in the Far East.

Diplomatic circles have been stirred by an editorial in the Journal de Geneve, which says that the great powers have no reason to complain of Japan's attitude, as she is only doing in Tsinan what the British did last year in Shanghai and Hankow, and what the Americans are doing in Nicaragua.

The Americans, says the newspaper, are protecting a canal and the Japanese a railroad which do not belong to them, with the difference that the United States wishes to establish a political protectorate over Nicaragua, such as the Americans never would permit the Japanese to establish in China.

JAPANESE PAPERS SET LITTLE NEWS

Tokyo, May 13.—(P)—Rigorous censorship in Tsienan and Peking has prevented publication here of news from China. The vernacular papers editorially support the action of Japan at Tsinan and generally urge the withdrawal of troops as soon as possible, they point out that public opinion abroad is suspicious of the dispatching of large numbers of troops to Shantung.

It is expected that the cabinet at its meeting on Tuesday will discuss demands on the nationalists for reparations, although this is considered complicated owing to the present ambiguity of responsibility for the outbreak in Tsinan.

Meanwhile, the third or nayava division is moving to Shantung with two other divisions held in readiness if they should be needed.

NATIONALISTS DISMISS GENERAL HO YAO-TSU

Shanghai, China, May 13.—(P)—The nationalist government council today passed a resolution of dismissal of General Ho Yao-Tsu, whose army was implicated in the first collision with the Japanese troops at Tsinan.

NORTHERN GUNBOAT SHELLS AMOY ISLAND

Amoy, China, May 13.—(P)—The nationalist government council today passed a resolution of dismissal of General Ho Yao-Tsu, whose army was implicated in the first collision with the Japanese troops at Tsinan.

Amoy is in Fukien province at the mouth of the Kiung Kiang river, a considerable distance from the Yangtze, where northern warships were last reported active. The Hai Chi carries two eight-inch guns and 10 4.7-inch guns, besides small arms.

EASTERN LEADERS WILL FIGHT WEST

Continued from First Page.

newspapers of Kansas, the result of which said that Hoover could carry the state easily. Similar polls in Nebraska and other mid-western states were to the same effect.

It is noticeable that some mid-western senators who are opposed to the nomination of Hoover, but who are not themselves candidates for the presidential nomination, appear to refrain from joining in the assertion that Hoover could not carry their states. Among these apparently are Senators Howell, of Nebraska; Brookhart, of Iowa, and Frazier, of North Dakota. The effect of this pressure by some western senators on eastern senators and leaders is that some give weight to it, others flout it, and some, like Secretary Mellon, were persuaded to believe it. The first answer is that no eastern leader thinks of nominating Lowden or Daves.

East Will Refuse Lowden. The direct and obvious way to plan-

Loving Tribute Is Paid To Mothers of Atlanta

SPECIAL SERVICES HELD BY CHURCHES

Atlanta, in common with the rest of the nation, Sunday paused to pay loving tribute to mother. The day was observed by special services and eloquent sermons in practically all the churches of the city. It was marked by a host of gifts sent by sons in Atlanta and in distant parts of the country. For at least one day the other members of the family occupied second place. It was the day of days devoted to mother and mother alone.

At the churches of the city, visitors were given either a white rose representing a mother who has passed on or a red rose for a living mother.

Breakfast for more than 150 men whose mothers are in other cities was provided with the home touch at the Young Men's Christian association Sunday morning by the Ladies' Auxiliary of the Central Presbyterian church.

As place cards for the young men letters from their mothers were set at each place.

man whom the west endorses, but to consider the east's own interests, and to turn to two men whom some of the eastern leaders want a little more than they want Hoover, namely, President Coolidge and Mr. Hughes.

Coolidge or Daves. In any event and all events, the keynote of the situation, as the scores of delegates now stand, is Pennsylvania. It is almost correct, though not absolutely, to say that Pennsylvania can swing the decision either to Hoover or to some one else. The probability is that Pennsylvania will swing to Hoover, because a majority of the Pennsylvania leaders want Hoover, and the people of the state want him.

If Pennsylvania, because of the mid-west argument against Hoover, swings to some one else, the identity of the "some one" remains to be seen. Within this area of speculation the one certainty is that Pennsylvania will never support, but will always prevent, the nomination of Lowden or Daves. Pennsylvania's first choice in this "some one" field would be Mr. Coolidge and its second Mr. Hughes. As to the possibility of drafting one of these, Mr. Coolidge's repeated public statements are familiar, and Mr. Hughes has made convincing private statements that he cannot be drafted.

BAPTISTS GATHER FOR B. Y. P. U. MEET

CHATTANOOGA, TENN., MAY 13.—(P)—A vanguard of Baptist women and Sunday school B. Y. P. U. field workers, expected to number more than 1,500 by tomorrow, was arriving here tonight to attend auxiliary meetings, preliminary to the annual Southern Baptist convention, which will open Wednesday.

The first formal session will be convened tomorrow afternoon when the Sunday school B. Y. P. U. workers, representing an enrollment of 2,500,000 in 18 states, gather in Memorial auditorium, followed by the missionary union tomorrow night. The field workers will adjourn Tuesday night, but union sessions will overlap the convention proper through Wednesday.

Mrs. W. J. Cox, president of the union; Miss Kathleen Mallory, secretary, and Mrs. Carter Wright, chairman of the Ruby anniversary program, which will climax the meetings Tuesday night, had arrived today and were in conference with other officers most of the day considering organizational problems.

The Ruby anniversary program, signifying 40 years of service in the Baptist church and emblematic of sacrifice, to be held Tuesday night, has its central theme a Book of Remembrance, taken from Malak 3:16. Reports will be received from state anniversary organizations on the Ruby expansion program.

Besides the president's message and reports of officers, well-known speakers will include Mrs. Ella A. Boole, president of the National Women's Christian Temperance union, and Dr. E. Y. Mullins, president of the Baptist World Alliance, who will address the Wednesday morning and afternoon sessions, respectively.

Several Baptists prominent in the church educational field will address the field workers, among them Dr. J. L. Masters, Louisville, Ky.; Dr. M. T. Andrews, Texarkana, Texas; and Dr. J. W. Storer, of Richmond, Va. The challenge youth offers the church will be the principal theme of the predominant round-table discussions of the workers.

Supplementary to the daily educational sessions will be held meetings of the inter-board commission on student religious activity, an organiza-

COLUMBIA SOPH HANGS HIMSELF AS TOUR FADES

Peekskill, N. Y., May 13.—(United News).—The body of Roland F. Lewis, Jr., sophomore student at Columbia university, was found hanging from a tree on a farm near here today. Police said he had committed suicide.

Lewis disappeared from school last Monday, and parties composed of university students had searched the woods near here in an effort to locate him. Today Albert Cruger was walking along a stream when he discovered the body hanging from a tree at the top of a cliff. Harvey Dow, one of Lewis' classmates, identified the body.

When Lewis disappeared from the Phi Delta Theta fraternity house Monday he was hatless and had borrowed \$2 from the fraternity house room. Wednesday a letter mailed in Buffalo was received by a classmate, Albert F. Stranahan. The letter said in part:

"I guess I'll never take the trip to Europe, and will not see Paris, and I guess that misunderstanding between father and myself will not be patched up so quickly."

"I am tired of civilization—of mankind—I want to go to some place where I won't come in contact with the drudgeries of life."

How do you buy?

When you enter a store to buy anything, how do you ask for it? Do you call for the articles by name, or do you generalize—a can of tomato soup; a bag of flour; an aluminum kettle; so many square yards of linoleum; a meat grinder?

It is much better and far more satisfactory to specify the articles you want by name, for merchandise that is good enough to be sold by name is almost always better in quality, and usually no higher in price, than goods of uncertain lineage and less certain quality.

The advertising columns of this newspaper carry advertised names that are familiar to millions of people. Soap, flour, sugar, cereals, kitchen ware, rugs, linoleum, automobiles, etc. They represent those articles that stand for the best in their respective classes of merchandise—quality all through.

Advertising keeps these names before you constantly. Advertising is a constant reminder that the articles you want are the same articles that you see advertised day after day—that justify their being by the service they render. And advertising brings you news—of inventions, discoveries, improvements that keep you up to date.

Tell the sales-clerk what you want by its advertised name. You'll get it—and your money will purchase full value. It pays to read advertising and remember advertised names.

Unknown Steamer Aground on Shoals Off Cape Freels

St. Johns, Newfoundland, May 13. (United News).—An unknown steamer ran aground on Cape Freels Shoals, near here, early today and has been sounding a siren at frequent intervals.

According to the Cape Pine light keeper, dense fog and rough weather have prevented sighting of the ship or launching of boats from the rock-bound shore.

The ship presumably is a tramp, without wireless, otherwise the Cape Race station would have picked up distress signals.

For 24 hours the whole south coast has been enveloped in dense fog.

Willacoochee Votes To Let Cows Roam Through Town Streets

Waycross, Ga., May 13.—Willacoochee, in Atkinson county, has decided to let the cows continue to roam the streets. The vote on the question was 65 for the cow and 50 against the cow.

U.S. SUGAR GROWERS STARTING FIGHT TO PROTECT RIGHTS

Washington, May 13.—(United News).—Efforts to prevent foreign trade encroachments in the American sugar market will be started here this week at the opening of headquarters for the Domestic Sugar Producers' association.

The membership of the association embraces all sugar growers in the United States, Hawaii and Porto Rico.

Fundamentally, the Domestic Sugar Producers' association is organized to encourage development of sugar beet growing by American farmers, and to advance the output of sugar cane by American continental producers as well as those in Hawaii and Porto Rico, President E. A. Burguiere, of New Orleans, said.

HUNDREDS VIEW LINDBERGH'S SHIP AT SMITHSONIAN

Washington, May 13.—(United News).—Hundreds of Sunday visitors to the Smithsonian institution gazed at the "Spirit of St. Louis," Charles A. Lindbergh's historic plane, as it hung for the first time in the national museum.

Immediately behind the portals of the old red-brick building, the ocean-crossing monoplane hangs majestically nine feet above the floor, suspended from three cables.

The work of placing the monoplane was completed late Saturday in order to have it ready for the Sunday crowds.

Smithsonian officials plan to erect a platform which will enable persons to look into the cockpit instead of gazing upward at the plane.

NEW YORK OFFICIAL COMING TO ATLANTA

State Comptroller Morris S. Treman, of New York state, has designated Deputy Comptroller A. L. Doris, of Brooklyn, as a delegate to the convention of the International Association of Comptrollers, to be held in Atlanta May 17-19.

During the convention Mr. Doris will address the international association on the operation of the bureau of municipal accounts in the New York State comptroller's office, explaining the general municipal law under which this bureau operates, and describing the nature and scope of the municipal examinations. He also will discuss duties of municipal officials, particularly accounting and taxing officials, and will stress the beneficial results derived from the examinations made by the state comptroller's office, not only to the municipalities, but to the state as a whole. He will point out also that there is an indirect benefit to other states and municipalities, as the records of the bureau of municipal accounts show that foreign states and municipalities outside of New York frequently seek the aid and advice of the bureau, which during the last year examined accounts of more than two hundred municipalities.

PAUL ARTHUR, ACTOR, PASSES IN LONDON

London, May 13.—(P).—The actor, Paul Arthur, who for more than 30 years played in theaters on both sides of the Atlantic, died in a nursing home yesterday. Arthur, an American, was born in 1859 and made his first appearance on the stage with the late Edwin Booth.

CALIFORNIA WOMAN IS FOUND HANGING IN OCEAN LINER

Glasgow, Scotland, May 13.—(United News).—Miss Eloise Gundrum, 45, California woman, was found dead, hanging from a rope in her cabin on the liner California, when it arrived at Greenock yesterday.

The body was brought to Glasgow, embalmed and sent to New York on the Anchor liner, Transylvania, which sailed Saturday.

MISS GUNDRUM WAS PROMINENT ON COAST

Sacramento, Cal., May 13.—(P).—Miss Eloise Gundrum, found dead in her cabin on a liner Glasgow, was a sister of Dr. F. F. Gundrum, of Sacramento, and was prominent in social activities. She was a member of the University Women's association, having attended Stanford university. She was born in Ionia, Mich., in 1882.

RAILWAY CLERKS HOLD ANNUAL MEET IN COLUMBUS, OHIO

Columbus, O., May 13.—(P).—Organized employees of the largest system of railroads in the world who guide the public in its dealings with rail and steamship lines will gather here tomorrow for the thirteenth regular and fifth triennial convention of the Brotherhood of Railway and Steamship Clerks. Entire executive offices of the organization have been moved here from Cincinnati for the period of the convention.

ESCAPED ROGUE IS RECAPTURED AT MOTHER'S GRAVE

New York, May 13.—(United News).—Kneeling over his mother's grave with a large bunch of violets in his hands, Joseph Richetky, 39, was arrested by detectives today.

Richetky escaped from Flushing town hall last November after being arraigned on a charge of grand larceny, fourth offender. Conviction means life imprisonment.

His mother died two weeks ago. Richetky did not attend her funeral as detectives had hoped, but Mother's day was too much for him.

ATLANTA NEGROES WIN HONORS AT A. M. E. MEET

Chicago, Ill., May 13.—(Special).—The general conference of the African Methodist Episcopal church is making headway in carrying forward the work through the various committees. The coming week the elections of four or five bishops are to be held.

J. A. Lindsay, R. V. Brunch, F. R. Sims, L. A. Townsley, E. M. Johnson, R. H. Ward, J. L. Butler, J. A. Hadley, of Georgia, are among those who are prominently mentioned as candidates. W. G. Alexander, dean of Turner Theological seminary, Atlanta, is regarded the candidate for the bishopric for South America, with J. L. Stringer, J. T. Wilkerson, E. Reese, A. P. Solomon, W. O. P. Sherman, B. S. Hanna, W. B. L. Clark and I. G. Glass, as members of the Episcopal committee from Georgia before whom the bishops of the church will be examined.

M. S. Handy rendered a program Saturday evening. Sunday was Mother's day. Exercises were observed in all the churches of the city. The bishops and prominent ministers filled the pulpits in the city and adjacent towns.

MEMORIAL SERVICES FOR CONGRESSMAN

Washington, May 13.—(P).—Memorial services were held in the house today for the late Representative Ladd Ladd, of Louisiana. Representative James B. Aswell, of Louisiana, presided during the ceremonies. The speakers included Representative Wilson, Speaker, Sandlin, O'Connor, Martin, Kemp and Derouen, of Louisiana; Kindred, of New York, and Davis, of Tennessee.

Spanish Journalism Prize
Madrid, May 13.—(P).—The account of the flight of Ruth Elder in an attempt to cross the Atlantic, written by Manuel Chaves, editor-in-chief of El Heraldillo, has won the Mariano Cavia prize of 5,000 pesetas (about \$825) for the best story printed in Spanish newspapers during 1927.

Old Folk's Best Friend

NEGROES SEE SUCCESS FOR Y. M. C. A. DRIVE

The campaign for 500 men members in five days by the Butler street Y. M. C. A. is creating city-wide interest among colored citizens of Atlanta since it is looked upon as an important step towards rehabilitating this most important social, civic and religious institution. The management believes achievement of the goal will mean establishment of a strong creative program in the near future for the colored men and boys of the city.

H. H. Williams, executive secretary of the Ninth street branch Y. M. C. A., Columbus, is in the city to observe the plans for organization and method of procedure of the campaign. Next week a similar campaign is to be launched in that city.

R. H. King, regional secretary of the southern region and P. M. Colbert, general secretary of the Atlanta Y. M. C. A., will be principal speakers at the report meeting at 6:15 o'clock tonight. The following is the campaign organization:

Red Division—William Driskell, leader; A. T. Walden, associate; S. M. Jones, aide. Team No. 1—S. S. Abrams, captain; C. L. Harper, James E. Williams, J. H. Reese, John S. Allen, Dr. A. B. McCoy. Team No. 2—S. M. Lewis, captain; C. N. Correll, W. R. Holloman, H. E. Davidson, Dr. William Burney. Team No. 3—A. Bowie, captain; R. P. Johnson, A. J. Davis, V. D. Spivey, W. J. Sewell. Team No. 4—J. H. Howard, captain; T. J. Henry, C. E. Arnold, A. W. Russell, D. K. Watkins, J. R. Salter. Team No. 5—Dr. H. E. Nash, captain; M. Blackshear, J. C. Cole, Charles L. Giddens, J. B. Clayton, W. E. Kitchens.

Big Demand Seen For Seats Friday At Emory Concert

A heavy demand for tickets to the Emory Glee club's farewell pre-European concert at the city auditorium Friday night is anticipated this morning when the reserved seat sale opens at the Cable Piano company.

In order that Atlantans may be assured of choice locations, the glee club management announced Sunday night that one entire side of the auditorium had been reserved for the general public. These are the seats which will go on sale Monday. The other half of the huge hall has been virtually "sold out" during the last week to students and alumni of the university.

Inasmuch as the appearance of Byron Warner, first Atlanta tenor to be accepted for grand opera, is expected to have a tremendous popular appeal, prices for the concert have been kept down to a low scale, ranging from 50 cents in the balcony to \$1.50 for the best arena seats.

Officials of the glee club will call Monday morning upon Governor Hardman to deliver the governor's box seats and to receive from the state executive official greetings which will be presented by the club to the government of Great Britain. Mayor Ragsdale, who also is planning to attend the farewell concert, will turn over a similar letter to be transmitted to the lord mayor of London, by whom the glee club will be entertained this summer.

Presidents M. L. Brittain, of Georgia Tech, and J. R. McCain, of Ames Scott, will be guests of President Harvey W. Cox, of Emory, in one of the boxes Friday night. Each of the Emory fraternities and clubs will have two boxes and also a special row of seats.

WOODMEN CIRCLE LEADER TO VISIT ATLANTA JUNE 1

Extensive plans are being made for entertainment of Mrs. Dora Alexander Talley, national secretary of the Woodmen Circle, who will visit Atlanta June 1. A banquet will be given in her honor at the Henry Grady hotel on the night of June 2. Three hundred guests have been invited.

Several meetings will be held during the two-day visit of Mrs. Talley and many out-of-town members are expected to attend.

One hundred adults and 200 children have applied for initiation as an honor class for National Secretary Talley. All meetings will be held in the ballroom of the Henry Grady hotel.

DIXIE, NORTHERN OFFICIALS MAKE INSPECTION TRIP

Two officials of the Dixie and Northern Air Line have begun a tour of inspection of airports and emergency landing fields to be used by the company's planes, it was announced from central headquarters here Sunday, with departure of the head of the public relations department, A. E. Perkins, for Jacksonville.

E. E. Barnes, general traffic manager, and H. G. Halsey, assistant general passenger agent, left Sunday for Chattanooga, Knoxville, Cincinnati and other northern stations on the line. They will be away several days.

Lookouts Overtake Crackers and Win Sunday Game, 7-6

Atlantans Get An Early Start But Lose Out

Pence and Rogers Fail to Check 'Noogans; Return Home Today.

BY ED SUSSORF.

Chattanooga, May 13.—The Lookouts and Crackers argued for two hours here this afternoon over the disputed possession of the cellar berth in the Martin loop. The Crackers won the ball game 7 to 6.

Herb Pyle, who started for the Lookouts, presented the Crackers a six-run lead in the first two innings. But Johnny Horan, who relieved him, brought his pet grudge into the box with him and the Georgians while the Lookouts overcame the lead and moved them out by the single run margin. The Crackers beat Horan in his first 1928 appearance on opening day in Atlanta—that was the grudge.

Pence Shelled.

Russell Pence, who got the starting assignment for the Crackers, did not at all well. After his mates had given him a six-run lead the Lookouts found him for five hits and four runs in the fifth. Gallatin Tom Rogers came to the rescue in the fifth, but the Lookouts nosed out at his expense in the seventh.

Pyle was wild and so were his infielders and before the end of the second the Crackers were in possession of a six-run lead in the making of which there were but three hits concerned. Zoeller first up walked an easy roller sent his way by Max West. Both moved up when Gilbert Rosenthal, who relieved Pence, threw home, catching Zoeller in a chase. Frankie scored when Pence fumbled a low throw from Moore, who had run over to help catch the little Cracker between home and third.

Pyle gave Jones a duck to start the second and then walked Connolly. Brock's sacrifice moved him runners up and then Pence slapped out a single to score Jones and Connolly. Zoeller was hit and a walk to Gilbert filled the bases. Third drew a walk, scoring Pence and Pyle gave way to Horan. Pyle's single scored Gilbert and Zoeller.

Thereafter the Atlantans were victims of Johnny Horan and his vicious curve and nobody passed second base.

The Lookouts started pecking away at that six-run lead in the third. Horan, first up, singled and made third on Kane's one buster. When Brennan walked the sacks were loaded. Horan scored after the catch when Cashion fired out to the foot of the left field wall. Pence was knocked out in the fifth. Horan opened the frame with a home run to get the victim of a fine play. Pyle to Pence, on a slow infield roller, but Brennan singled and made third when Cashion doubled in left center. Taylor's sharp single to center scored Brennan and Cashion. Rosenthal skied, but Moore walked. Zoeller crashed one at Connolly that was too hot to handle and Taylor counted. Rogers went in and retired the side.

Lookouts Tie Count.

The Gallatin Gunner walked Horan to start the sixth and before he got the last Lookout out the count was tied. Kane attempted to sacrifice and both he and Horan were safe when Rogers attempted a play at second. Horan, first up, singled and made third on Kane's one buster. When Brennan walked the sacks were loaded. Horan scored after the catch when Cashion fired out to the foot of the left field wall. Pence was knocked out in the fifth. Horan opened the frame with a home run to get the victim of a fine play. Pyle to Pence, on a slow infield roller, but Brennan singled and made third when Cashion doubled in left center. Taylor's sharp single to center scored Brennan and Cashion. Rosenthal skied, but Moore walked. Zoeller crashed one at Connolly that was too hot to handle and Taylor counted. Rogers went in and retired the side.

The Crackers left here for Atlanta where they will open a three-game series with the Birmingham Barons at Spiller's Monday.

Spanish Star Loses.

Berlin, May 13.—(United News.)—Lily Alvarez, Spanish tennis champion and noted all-around sports woman, was defeated today before a distinguished gallery by Cilly Aussem, German women's champion, 6-5, 7-5. The Spanish ambassador, the Argentine minister, the former German crown prince, and other notables watched the match.

LANE PAIR WIN DOUBLES CHAMPIONSHIP

New Orleans, May 13.—(AP)—Maurice Rayon and Leonard Chamberlain, of Tulane university, won the doubles championship of the Southern conference tennis tournament here today by defeating Gustave Feur and George Yennuine, of the University of Florida, in three straight sets, 10-5, 7-5, 6-4.

The Tulane pair came from behind in each of the three sets and won by a series of brilliant plays when they were most needed.

Donald Cram, of Vanderbilt, won the singles championship yesterday by eliminating Feur in the finals, 6-2, 6-1, 6-3, 6-3.

Feur and Yennuine started the first set as if they were going to play away with the match without difficulty, piling up a four-game lead before their opponents were able to score.

The Tulane racket wielders, however, came back to within four in a row, which evened the set. The score for the remainder of the set was 3-4, 3-4, 1-5, 6-4, 7-5, 7-4, 8-7, 8-4, 8-6 and 8-10.

In the second set the Floridians took the first game and then were in the lead or all even until the score became 5-4 after which Rayon and Chamberlain captured two straight games to win.

Tulane took the first game in the final set but Feur and Yennuine jumped into the lead by winning the game when the score was two all. Tulane promptly evened the set again and remained until the end.

All four players made brilliant shots at times, but were weak at other times. Tulane won by scoring in the pinches, which Florida did not seem able to do effectively. Feur was not up to the form he displayed yesterday in the singles final and his teammate drove a large number of balls in the net which seemed easy shots.

American League

YANKS TRIM TIGERS.
New York, May 13.—(AP)—The leading four runs was all that the Yankees needed here today to make Detroit their second straight loss.

Mark Koenig, base on balls and sacrifice fly turned the tide.

The Yankees added three runs in the eighth.

Mark Koenig started at bat with four hits in five times up while Ruth got three in four.

Box Score.
Yankees, 4; Tigers, 3.
Runs: Yankees, 4; Tigers, 3.
Hits: Yankees, 10; Tigers, 7.

GENE TUNNEY BEGINS GRIND FOR NEXT GO

Louisville, Ky., May 13.—(AP)—W. E. Applegate, 76, who was one of the oldest living members of the Louisville Jockey club, died here today.

A native of Georgetown, Ky., Mr. Applegate came to Louisville when a young man and made his home here for many years.

He was a racing stable at the time of his death, survived by three sons, H. C. Applegate, Louisville; W. E. Applegate, Louisville; and W. E. Applegate, Jr., of New Orleans.

National League

BROOKLYN THROWS RUCH.
Brooklyn, N. Y., May 13.—(AP)—Brooklyn broke its losing streak here today by emerging triumphant from a one-day stand at Philadelphia.

The Phillies were defeated by a score of 8 to 4. Within an hour after the championship arrived here late yesterday afternoon, he was on the road for a three-mile jog in the battered old sweater, blue shirt and gray trousers he always wears around camp.

Tired from the long trip here from New York and the first effort of the championship, he was on the road for a three-mile jog in the battered old sweater, blue shirt and gray trousers he always wears around camp.

During the coming week Gene plans nothing but road work with jogs over the hills and around the track.

He will be in Philadelphia today, where he spent most of the winter. The excess weight, he believes, will give him something to work against.

Gene tips the beam now around 200 and expects to fight Heeney at 190.

Southern League

VOIS DEFEAT LEADERS.
Nashville, Tenn., May 13.—(AP)—The visitors in the ninth ended Nashville's streak here today, 9 to 8.

Three runs, but an error, kept the home team from scoring more.

On base with an error, he walked over the winning run in the eighth.

Gene plans nothing but road work with jogs over the hills and around the track.

A population of 500,000 by 1932 is Atlanta's slogan. Let's all pull together for a Greater Atlanta.

The Constitution's Weekly Business Review

EDITED BY M. D. GLEASON

There is hardly a need or a want that cannot be filled in Atlanta's stores and factories.

Large Canvas Firm Busiest Since It Entered Business

The man or woman who visits the M. D. Smith Tent & Awning Co. at the present time will see this old reliable canvas company working the largest force in its history and everybody as busy as a bee.

Great quantities of duck, canvas and ropes are to be seen everywhere in the plant piled ceiling high, as this

firm is one of the country's largest canvas specialty manufacturers. It carries great varieties of canvas and accessories to suit the needs of all who want anything made of canvas.

At this time the company is in the midst of the awning season, and for this purpose it has a wonderful line of new and fancy patterns for the

Buy When the Market Is Low

Buy your Travelers Guaranteed Low-Cost Life Insurance Policy early. You will benefit in three distinct ways:

- (1) You will get your insurance at a much lower rate than if you wait.
- (2) You will insure yourself an income in case of permanent and total disability—a misfortune which may happen at any time.
- (3) You will save a considerable sum of money for your own use later on, or for the use of your family, which you otherwise would not save.

Protect yourself and your family; save money—buy your life insurance early.

some owner to select from. This gives the buyer the opportunity to select the particular pattern that will best blend and fit in with the building and its environment.

The usual procedure for people wanting awnings is to give Ivy 7122 a ring and say: "Please send out one of your salesmen with his line of samples and give me an estimate of what it will cost to put awnings on my house or other buildings." After the appointment is made and samples shown, the home-owner can decide what kind and how many awnings he wants.

The M. D. Smith company is the oldest firm of its kind south of the Mason-Dixon line and has a very efficient organization of men and women who know just what to do in filling the salesman's specifications. Due to the high quality of its material and up-to-the-minute style, the company gives its customers such good values for their money that the customers recommend the good workmanship and material to their neighbors and friends.

Another thing about this big plant that always interests the visitor is the large number of big gawp tents that it makes. Right now six extra large ones are under way, one of them going to Tuscon, Ariz., and five to different parts of Pennsylvania.

Atlanta is fortunate to have so many of these large canvas firms in her midst, for in addition to greatly helping in the weekly pay roll the hundreds of tents they make annually save their owners many dollars and the fact is millions of people that they were made in Atlanta.

Large Cleaning Co. Protects Workmen And Customers Alike

Few people realize to what proportions the window, office and house-cleaning business has grown in this busy city of Atlanta.

The National Window and Office Cleaning company, located at 181-2 Ivy street, N. E., has upward of 700 customers on its books, and its busy workmen with their red ladders may be seen in the residential as well as the downtown business sections.

This company began in a small way about fifteen years ago, and is the oldest of its kind in this section of the country. Organized responsibility is back of every movement of its employees during working hours, for the company carries the fullest protection for all employees under the workman's compensation law. It protects customers to the full value for any breakage or theft caused by any of the employees while on the job.

Three new additions to the company's long list of customers are the new J. P. Allen store, the new S. & W. restaurant on Peachtree street and the new Duffie-Freeman furniture store.

Among the many things emphasized by speakers at the banquet following the convention of the Georgia League of Local, Mutual Building and Loan Associations, held in Decatur recently, it is interesting to note the way in which the speakers dwelt on the two main functions performed by these constructive factors of community life.

These are the promotion of thrift and the complete ownership of homes. It is a noteworthy fact that in those communities where these associations are most active, there is a larger percentage of savings and homes owned by the occupants.

This can be in most instances, be traced directly to the influence of the associations operating here.

It is gratifying to the members of the associations in Atlanta to realize that this city is beginning to make strides toward the same goal that has been so successful in other places. In particular the Columbia Building and Loan association, at 127 Carnegie Way, seems to embody these principles toward the goal of leadership in Atlanta. It is natural that the members of this association should feel proud of the progress that has been made, and credit for the showing belongs

very largely to the board of directors, who have been very active in the management of the affairs of the association. These men, numbering among themselves some of the most prominent business men in the city, have given unsparingly to their time and attention to the association, and as the second milestone of its existence, the making of the third contract, it is making the third contract, it has executed for the Atlanta water works. The company also has on order a 30,000-gallon unit for the Tennessee Coal, Iron and Railroad company, of Birmingham, Ala., and recently completed addition to the pumping plant in the city of Macon, Georgia.

Among the many things emphasized by speakers at the banquet following the convention of the Georgia League of Local, Mutual Building and Loan Associations, held in Decatur recently, it is interesting to note the way in which the speakers dwelt on the two main functions performed by these constructive factors of community life.

These are the promotion of thrift and the complete ownership of homes. It is a noteworthy fact that in those communities where these associations are most active, there is a larger percentage of savings and homes owned by the occupants.

This can be in most instances, be traced directly to the influence of the associations operating here.

It is gratifying to the members of the associations in Atlanta to realize that this city is beginning to make strides toward the same goal that has been so successful in other places. In particular the Columbia Building and Loan association, at 127 Carnegie Way, seems to embody these principles toward the goal of leadership in Atlanta. It is natural that the members of this association should feel proud of the progress that has been made, and credit for the showing belongs

Goodyear Engineers Solving Car Owners Tire Troubles

The Goodyear Rubber company recently brought out a new machine designed by their engineers to measure the strain and pull on the different cords used in making automobile tires.

The tests were first used on two different twisted cords, one the ordinary cord and the other the new patented twist cord.

After the tests of two inches the cords formerly used snapped in two, while the new super twist cord was stretched to over seven inches before breaking. "This test plainly shows," says C. C. Mason, Jr., who is local manager for the Consolidated Tires Stores, Inc., that the Goodyear engineers have made a big step forward toward trouble-proof tires.

Atlanta Firm Awarded Big Contract in Nashville, Tenn.

Bufoed, Hall and Smith, sales engineers and contractors, with offices in the Red Rock building, were recently awarded a contract amounting to \$130,000 for a new pumping plant by the water works department of the city of Nashville, Tenn.

An existing pumping engine which was installed in 1880 will be removed to make room for the new machinery. The new plant will be similar to one recently completed for the city of Knoxville, Tenn., by Bufoed, Hall and Smith, where the same design was approved.

This plant will be similar to one recently completed for the city of Knoxville, Tenn., by Bufoed, Hall and Smith, where the same design was approved.

Cylinder-Grinding Company Wins Wide Customer Clientele

Good work, courtesy and service will win over many other things in the industrial field, if the craftsman can stay in business any reasonable length of time.

Take the Camp Cylinder Grinding company as an illustration. This firm started out as a small machine shop a few years ago at 56 Walton street. At first the business started off light with limited equipment, but J. A. Camp and associates were good mechanics and soon more equipment was needed and then they began to specialize in automobile machine work. Soon they became known far and wide as experts in their line.

HIGH LIGHTS OF HISTORY

Registered U. S. Patent Office.

5-22

FROM THE STIRRING TIMES THAT MARKED THE VICTORY OF THE WHITE MAN'S CIVILIZATION OVER THE BARBARISM OF THE INDIAN IN THE FAR WEST EMERGED A MAN WHO CAUGHT THE POPULAR FANCY, AND BECAME A NATIONAL HERO. THIS MAN WAS "BUFFALO BILL" CODY, SCOUT OF SCOUTS AND IDOL OF AMERICAN BOYHOOD. WILLIAM FREDERICK CODY, AS HE WAS CHRISTENED, WAS BORN IN A FRONTIER SETTLEMENT IN SCOTT COUNTY, IOWA, IN 1845.

Buffalo Bill, Scout of Scouts—Part I.

The Cody Family in Iowa.

by J. CARROLL MANSFIELD

His father, Isaac Cody, was a surveyor but, as there were long periods when there was no work in his line, he found employment driving a stage coach between Chicago and Davenport.

While living in Iowa, Mr. Cody was a justice of the peace and also served a term as a member of the legislature. His son, Little Billy, was a typical boy of the frontier and showed promise of becoming an expert hunter. Tomorrow—Isaac Cody moves to Kansas.

FINANCIAL

Loans on Real Estate

40

MONEY for first loans on Atlanta and suburban real estate. Rates 4% to 6%.

Wanted—Teachers in all departments. List of vacancies available. Address Box 170, Atlanta, N. C.
